

# Rahul Solanki

Email: rahulsolanki89@gmail.com

## PROFESSIONAL SUMMARY

Cloud Architect with 9 years of experience designing and implementing scalable, secure, and cost-efficient solutions across AWS, Azure, and GCP. Skilled in cloud migration, DevOps, IaC, and microservices, with a strong focus on performance, security, and business alignment. Proven success in delivering complex cloud transformations for enterprise clients.

## PROFESSIONAL EXPERIENCE

### Brillio Technologies Pvt. Ltd | Jan 2020- till now

- Design, implement, and maintain robust CI/CD pipelines using tools like Jenkins, CircleCI, or Azure DevOps to automate build, test, and deployment processes.
- Integrate automated testing frameworks (unit, integration, and functional tests) into the CI/CD pipeline
- Manage and deploy cloud infrastructure on platforms like AWS
- Leverage Infrastructure as Code (IaC) tools such as CloudFormation.

### InfinityLabs Ltd. | Oct 2017- Jan 2020

- Participate in the full software development lifecycle, including requirements gathering, system design, coding, testing, deployment, and maintenance.
- Write clean, efficient, and maintainable code following coding standards and best practices.
- Work closely with product managers, designers, and senior engineers to understand project requirements and contribute to the development of new features.
- Participate in daily stand-ups, sprint planning, and code reviews as part of an Agile development process.

### Innoeye Technology Pvt. Ltd| Jan 2016- May 2017

- Execution of automation script in different environments like dev, tst and stg after every release deployment and sends automation execution report to key stakeholders.
- Understanding open API specification in each repo and test different API's based on specification
- Using POSTMEN application for API testing, creation of collections and export them with team members.
- Analyze Test Results, Defect Tracking and Bug Reporting in JIRA.

## KEY SKILLS

- |            |                 |                   |           |
|------------|-----------------|-------------------|-----------|
| • AWS      | • AWS-lambda    | • AWS-Cloud watch | • AWS-ECS |
| • Circleci | • Docker        | • Shell script    |           |
| • Jenkins  | • Docker Images | • Cloud formation |           |
| • Git      | • NPM           | • Yaml            |           |

## EDUCATION

### Rajiv Gandhi Technical University | 2012

Bachelor's of Science in Computer Engineering

## CERTIFICATES

AWS Certified Solutions Architect Associate| Nov2024 - Nov 2027

Certified SAFe® 5 Practitioner
